5th February 2018

Dear Caroline

The Trustees would like me to thank Max Walker and all at the Sporting Bears Motor Club for their continued support and their most recent donation of £672.

We received many messages and cards from those helped in the past year letting us know how our help had made a difference to them. We could not do any of this without the generous donations from so many people and organisations such as yourselves.

"Thank you so so much for your very kind grant. I feel humbled and proud. You make me feel proud to have served. Something through dark times I don't often feel. I know I'm part of a bigger family and that's you. So for the life line thank you. I hope you know just how much this means to us. Because words alone can never begin to express what it means"

"Thanks once again for your continued support/assistance. Your financial support has helped a great deal to improve the quality of life for our disabled daughter"

"I would like to thank your Caseworker for her professionalism, respect, care, love and understanding towards my situation. She came with her positive approach and dealt with it in an extremely positive way. I'd like to thank her for not looking down on me or what I'm facing. Sometimes it's not about the money but in the way you treat people with respect and dignity"

"Once again the RNRMCF have been amazingly supportive and generous to my daughter. It is no exaggeration to say that they are simply outstanding in every respect, through every single interaction we have ever had with them and I have nothing but praise, deep appreciation and grateful thanks for the help they have given my daughter. They have literally been our lifeline since my husband deserted us."

"You guys have no idea the difference you have made during the last few months with the help with grants and support. The grants have massively taken the stress and pressure off myself and my daughters during

this sad and difficult time. The respite away brought a smile on my girl's faces for the first time since the passing of their dad. I can't thank you enough, you have made such a difference."

So on behalf of all the children that we support – thank you for your support.

I enclose a copy of our latest Annual Review

Kind regards

Clare Scherer
Assistant Director
